MEMORANDUM FOR: Director of Central Intelligence

SUBJECT: Item No. 4 of the IAC Agenda (IAC-4-41)
"Critical National Intelligence Objectives
With Respect to Communist China"

1. If the military services feel they really need this, we should probably oblige them -- although from the CI point of view it would be a useless exercise.

2. If it is done, it would be aimed primarily or exclusively at OSO. It is, therefore, suggested that the Interagency Priorities Committee, which is chaired by C-1, be asked to prepare a draft for IAC consideration.
